Lesson Plan

Threat Landscape

Irfan Kanat

2022-02-21

In this module we will learn about threat landscape. Our goal is to learn about typical threats to our information security.

Learning Objectives:

1- Be able to identify common types of threat actors. 2- Understand the common methods of gaining access to systems. 3- Know the security measures to be taken to reduce risks.

The recommended teaching format for this module is as follows:

1. Students watch the video lesson either in class or before class.
2. Lecturer guides the students through the Cryptography Game.

Included in this module are:

- What's Out There: Video and Lecture Slides
- Gaining Access: Video and Lecture Slides
